Grace House Ministries
Covid-19 Policy and Protocols
August 28, 2020

This policy was made in consultation with Dr. Wesley Willeford from the Jefferson County Department of Health and is a living document.

- Masks must be worn at all times by girls and staff when visiting any location on campus outside of their primary residence. This includes the administrative offices and Campus School building. Additionally, all visitors must use the front doors to enter, including at the Campus School building.
- Volunteers may not enter the homes. Social workers must have an appointment scheduled with the Residential Program staff.
- Administrative staff may not enter any of the homes on campus unless necessitated by a job duty.
- Temperatures of girls, staff, and visitors must be taken using the provided contact-free thermometers on a daily basis. All temperatures are recorded in writing. Abnormal temperatures should be reported to your supervisor.
- Any person showing symptoms or with a known exposure to COVID-19 has access to testing through our partnership with Children's Urgent Care.
- Masks must be worn by all girls and staff throughout the school day.
- Continue to follow stringent cleaning and sanitizing procedures in the homes and reinforce proper hygiene practices for the girls. Please review these CDC guidelines: https://www.cdc.gov/coronavirus/2019-ncov/community/pdf/Reopening_America_Guidance.pdf
